

The Kettlewell Hostel

Group menu

Group meals are for exclusive hire bookings or larger groups (over 10) staying here, where all of the party would like to have a meal together and all the group has the same option. Group meals must be arranged in advance, typically a month before your stay is a good time to talk about what you might like, with final numbers no less than a week before your stay.

Dinner

Our group menu is designed to be as inclusive as possible, with hearty options for meat eaters, vegetarians, vegans and people who prefer a gluten free diet, so no-one in your party need feel left out.

Typically, we serve dinner at 7.00 but for exclusive hire groups we can do it earlier or later, just let us know ahead of time.

You just need to pick which meal you like each night, and give us a list of how many meat, vegetarian, vegan and gluten-free meals you would like.

It is helpful if you include names on a list of who has ordered what; people never remember what they ordered!

If anyone in your group would like to talk to us directly, regarding particular allergies or food intolerances, they are welcome to get in touch direct and we will do our very best to help.

If you are thinking about having a group meal on the day that you are arriving, please be aware that it is only possible to serve meals for one hour. If members of your group are potentially going to be delayed by travelling from all over the country, you would still be charged for what you order.

Breakfast is served every day at 8am.

For exclusive hire groups, you can choose to have a great big cooked breakfast for everyone. You just need to pick which breakfasts you would like each morning, and give us a list of how many meat, vegetarian, vegan and gluten free breakfasts you would like. It is helpful if you include names on a list of who has ordered what.

Breakfast only works if everyone chooses to opt in, this avoids confusion as to whether some have ordered and some have not. If only a few would like the cooked breakfast then we have the great self-catering kitchen for them to use.

We understand that in a group of 30, maybe a few people would rather bring their own favourite cereal and that is really fine but, if you would like breakfast, make it a group thing!
